

## Biography Britta Arnold

Between the Berlin grey and grey you'll sometimes find some fresh colors. A red bike, a blond girl with an unique style, in front of a wooden door. She opens it and shows you her home, her life, her studio.

Britta Arnold became one of the most requested Djs and producers from Berlin. Since she co-founded and managed the bar25 label in 2006 everything changed. From Katerholzig over KaterBlau - how the famous Berlin club is called now - she is a legend for her sets and her vivid style of life.

With Philip Bader she found in 2011 a studio partner and since that, she released on imprints like „Dantze“, „Circus Company“, „Heinz Music“ and „Katermukke“. Since a few years her technoid and straight sets capture the worlds stages.

From Fusion to Calvi on Rocks(Corsica), Suma Beach Festival(Istanbul) till Shoeless Open Air in Amsterdam - there is no festival any more without this girl. When the Katermukke showcases take place, you can expect a floating show from her with techno melodies and easy rhythms.
